

Carol Henry

ASLA Principal RLA

- Member of Design Concepts since 1989
Appointed Principal in 1998, Managing Partner in 2006
- Bachelor of Science, Landscape Horticulture; CO State Univ., 1981
Masters Degree Program, Department of Landscape Architecture;
Kansas State University, 1982-1985
Registered Landscape Architect in Colorado (#299), 2008

A belief in the importance of creating healthy communities has lead Carol to focus her work on educational campuses and parks and recreation projects. Connecting neighborhoods to these public spaces provides a unique opportunity to serve both the needs of the client and the greater population. Carol has worked on developing creative and accessible destination playgrounds for children of all abilities. She believes strongly in the need for providing lively educational and social growth opportunities for students at all school campuses. Carol feels that a successful design is one that the client can afford, maintain and enjoy. Her attention to detailing creates projects that are unique to each community.
